MOSES MACKAY

Moses of SOL3 MIO - NZ's most beloved highest selling classical trio, has finally released his debut original album. The album is classically influenced but is a soulful dedication to his grandmother with the album titled - Grace.

Recorded in LA at Furaha Studios (studio to Bruno Mars and Lady Gaga), Moses called in musicians such as Pianist Damiano della Torre who's worked with Tom Jones, Pavarotti and Terence Trent D'arby. And other world class musicians from around the world. The album is influenced by soul,

"The most challenging, yet most rewarding thing I've ever done in my life." - Moses

classical, orchestral and cinematic music. The Grace album is mixed by Peter Schwier and co produced by Nick Patrick (Andrea Bocelli, Aretha Franklin, Elvis Presley remastered). These songs have been years in the making and Moses is super excited to present for you his latest creation.
